

product focus: polishing equipment

HIGH-PERFORMANCE TROWEL

The Elite Series Five Star Trowel feature precision-ground work surfaces, ideal for decorative applications. Choose from three handle styles (ProForm, wood, and leather) for optimal comfort. The blade and mounting will not loosen during normal use, and the stainless-steel rivets are guaranteed not to corrode or come loose. Kraft Tool Co. 800-422-2448. www.krafttool.com. **Circle 21.**

BUFF AND GRIND

The 2400C-Colossos grinds, edges, polishes, and buffs concrete to within 1/8 in. of a wall. The machine handles spalled or rained-out concrete, VCT and VAT glue, carpet residue, mastic, epoxy, and other

challenging surfaces. It can grind up to 4000 sq. ft. or polish up to 4800 sq. ft. in one day; two units can be ganged together to double daily coverage. B.A. Werk Industries Group. 866-373-9375. www.werkindustries.com. **Circle 22.**

DIAMOND POLISHING PADS

I-Shine Polishing Pads can polish concrete up to three times faster and last longer than traditional phenolic resin

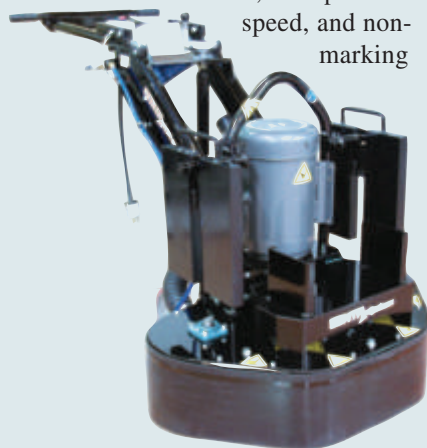

WET/DRY ABRASIVES

Frog Diamonds are resin bonded diamond abrasives that can be used wet or dry. Available in grits from 00 to 5, they can be used on marble, terrazzo, granite, and concrete. The 00 and 0 leave a smooth scratch pattern, eliminating the need to remove deep scratches left behind by metal bonded diamonds. VMC Technical Assistance Corp. 800-460-4862. www.vmtac.com. **Circle 23.**

FOUR-DISC POLISHER

The ProPolisher IV four-disc concrete polisher features a 10-hp 230/460 V, 3-phase motor, 385 rpm disc speed, and non-marking

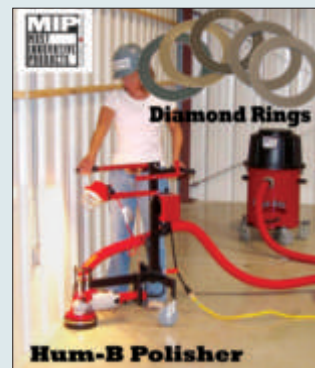

poly wheels. It can polish 350 sq. ft. up to an 800-diamond grit finish in approximately six hours. It has a 38-in. working width, counter rotating flex head disc assemblies, and a wide, flip-up T handle

assembly for easy operator control. Contrx Systems. 800-638-3326. www.contrxsystems.com. **Circle 24.**

POLISHER AND RINGS

The Hum-B edge polisher comes with a Milwaukee variable speed grinder, dustless shroud, 150 W halogen light, and nonmarking casters. It is designed to keep the operator from working on

hands and knees while polishing. Combined with Diamond Rings (available in grits 30 to 3500) the polishing system is designed for edge work, small areas, and hard to reach places. CDCLarue Industries Inc. 866-954-9700. www.cdclarue.com. **Circle 25.**

CONCRETE POLISHING

The ExtendedLife floor burnisher is super quiet, comes with dust control and operates at 1000 and 2000 rpm. The 20-in. unit features a flexible pad holder, a pad-centering device,

and is chrome plated. VIC International Corp. 800-423-1634. www.viccintl.com. **Circle 26.**

MONEY-SAVING KITS

All of the company's grinder/polishers are now offered in kits designed to save contractors time and money. Priced 20% below retail value, they include the Prep Economy, Prep Premium, Polish Economy, and Polish Premium kits. Each comes complete with all the necessary tools to complete the job, including a grinder/polisher, vacuum, hoses and fittings, removal tools, grinding and/or polishing abrasives, and a densifier for polishing projects. Kut-Rite. 877-786-5067. www.kutritemfg.com. **Circle 27.**
